Sofia's Environmental Story & Language Focus

Sofia loves nature and wants to help the environment. She says people should recycle paper, plastic, and glass. She also believes it is important to save water and keep rivers clean. In her neighborhood, there are many trees and plants, and she thinks cities should protect these green areas. Sofia teaches her family that small actions can help animals, plants, and the planet.

Language Highlights

- loves nature
- should recycle
- it is important to save water
- keep rivers clean
- cities should protect
- small actions can help
